

## Coronavirus Statement

As I am sure you are aware, the current outbreak of the coronavirus in Wuhan, China and subsequent government interventions continue to disrupt global markets.

With Chinese supply chains now slowly resuming operations, we are closely monitoring, and adjusting our inventory and resources in order to support our customer base. It is therefore understandable that our customers would look to their own supply chains, in order to gain re-assurance from their suppliers.

Basildon Chemical Co. Ltd. supply chain is very robust, as we employ multi sourcing from the global market, and regularly monitor and maintain healthy stock levels.

Where supply for some of our Vida-Care, VipyDone, VipyClar, and Speedbright range is from Chinese partners, we have been in close contact and have assurance that our existing supply chain is currently unaffected. In addition to this, we are holding significant stocks in the UK.

If this situation changes, we will inform you immediately.

David Laye  
*Supply Chain Manager*
